

## Contents

<b>Chapter 1. Active queues management algorithms, an analysis with the use of fluid flow approximation in CUDA environment .....</b>	<b>9</b>
1. Introduction.....	9
2. Fluid-flow model, a network case.....	10
3. Results.....	11
4. Conclusions.....	17
<b>Chapter 2. Business processes management in an intelligent organization on the example of WSEI .....</b>	<b>19</b>
1. Introduction.....	19
2. The essence of an intelligent organization and its determinants.....	20
3. Business processes in a service providing organization .....	26
4. WSEI as an intelligent organization – factor analysis .....	29
5. Managing business processes at WSEI.....	32
6. Conclusions.....	33
<b>Chapter 3. AQM algorithms for aggressive network streams.....</b>	<b>35</b>
1. Introduction.....	35
2. The CHOKe algorithms and its variants .....	36
3. Self-similarity of the Internet traffic .....	38
4. Results.....	40
5. Conclusions.....	44
<b>Chapter 4. Large Personal Data Sets Exploration.....</b>	<b>47</b>
1. Introduction.....	47
2. Problem Definition.....	48
3. Relational Datasets.....	49
4. Ontology-based Approach .....	51
5. Graph-based Approach .....	53
6. Conclusions.....	55

<b>Chapter 5. The classification of text documents in Polish language by using Latent Semantic Analysis for extracted information .....</b>	<b>57</b>
1. Introduction.....	57
2. The text document classification in Polish language by using LSA .....	59
3. The construction of the text document representation by using extracted information.....	60
4. The test classification using different text document representation .....	62
5. Conclusions.....	66
<b>Chapter 6. Decision support system for treatment of children with diabetes type 1 .....</b>	<b>69</b>
1. Introduction.....	69
2. Medical background.....	70
3. Methods.....	71
4. Experiments and results .....	75
5. Conclusions.....	77
<b>Chapter 7. Comparative Analysis of Database Solutions in Applications with the Android Operating System.....</b>	<b>79</b>
1. Introduction.....	79
2. Databases .....	79
3. Test environment.....	83
4. Research results.....	84
5. Analysis of the results .....	88
6. Conclusions.....	91
<b>Chapter 8. Wireless Sensor Network for the Unmanned Aerial Vehicle... 93</b>	<b>93</b>
1. Introduction.....	93
2. General Solution Concept .....	94
3. Proposed Solution .....	95
4. Conclusions and further studies .....	98
<b>Chapter 9. Risk management in the computer aided business continuity and information security management system.....</b>	<b>101</b>
1. Introduction.....	101
2. OSCAD project and tool – general description .....	102

---

3. Risk management method in OSCAD project .....	102
4. Summary .....	113
<b>Chapter 10. Building an integrated development environment using open source freeware tools, based on CCMODE project experience.....</b>	<b>115</b>
1. Objective of the project.....	115
2. Elements of a prototype environment .....	116
3. Experience with building the system supporting the development environment .....	118
4. Conclusions.....	122
<b>Chapter 11. Some aspects of information security and business continuity in public administration .....</b>	<b>125</b>
1. Introduction.....	125
2. Introduction to information security and business continuity.....	127
3. Integrated, computer aided system OSCAD for business continuity and information security management.....	127
4. Using OSCAD system to solve selected problems in public administration .....	132
5. Conclusions.....	139
<b>Chapter 12. File systems performance testing with ZFS and VxFS filesystems example .....</b>	<b>141</b>
1. Introduction.....	141
2. File as an abstract data area .....	142
3. Filesystems comparison and performance testing .....	146
4. Conclusions.....	149
<b>Chapter 13. Google Docs service as statistical research automation tool in aspect of fractal patterns perception.....</b>	<b>151</b>
1. Introduction.....	151
2. Google Drive and Google Docs.....	152
3. Genetic algorithm.....	154
4. Conclusions.....	158
<b>Chapter 14. The Use of the Internet in Banking Services .....</b>	<b>159</b>
1. Introduction.....	159
2. The Internet.....	160

3. Stages of Development of Internet Banking Model.....	162
4. Internet Banking.....	163
5. Summary .....	166
